Book Orders and Desk Copies

The USC Academic Resource Center has a simple tool for you to use for placing book orders. The Adoption Tool allows you to easily adopt course materials. If you experience any issues with the online system, please feel free to just send your order to Raymond McDermott via email at 1413txt@follett.com. If you have any questions about the tool or how it works, please contact Raymond McDermott.

Access the Online Adoption Tool
1. Go to: https://www.bkstr.com/usctextstore/home/en
2. Click on Books tab, then click on Online Adoptions

NEW USERS
1. Follow the steps listed above
2. Click on Register Here and complete the required fields
3. Enter 1413 in the Bookstore Supplied Password field

If you have taught the course previously, you will receive an email and the previous book list will be listed in the email. If everything is the same, you can just reply to the email and say readopt and the bookstore will take care of everything for you.

Please note: In the event that you do not receive an email from Follett prior to the semester, please check your junk or spam email folder as often these emails are routed there. If the link above does not work, please either email your order to Raymond at 1413txt@follett.com or try going to the bookstore site (https://www.uscbookstore.com/courselistbuilder.aspx) and choose “Online Adoptions” which will take you to a login page (https://adoptions.efollett.com/OnlineAdoptionsWeb/home/home.html).
