

CURRICULUM VITAE

Alison M. Cogan, PhD, OTR/L

July 29, 2025

I. BIOGRAPHICAL INFORMATION

PERSONAL INFORMATION:

School/Division	Herman Ostrow School of Dentistry of USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy
Office Address	1540 Alcazar Street, CHP 133 Los Angeles, CA 90089
Telephone	323-442-0816
Fax	323-442-1540
E-mail	alison.cogan@chan.usc.edu
Website	https://chan.usc.edu/research/labs/ReFReSH

UNIVERSITY EDUCATION:

Professional Education or Doctoral Education

2012-2017	Ph.D. in Occupational Science Chan Division of Occupational Science and Occupational Therapy University of Southern California Advisor: Dr. Florence Clark
2010-2012	M.A. in Occupational Therapy Chan Division of Occupational Science and Occupational Therapy University of Southern California
2003-2006	M.Ed. in Exercise Physiology College of Education Temple University

Undergraduate Education

1996-2000	B.A. in Political Science (magna cum laude) College of Arts and Sciences Temple University
-----------	---

POSTDOCTORAL TRAINING:

Training and Fellowships

2017-2020 **Postdoctoral Fellow in Polytrauma/Traumatic Brain Injury**
Department of Physical Medicine and Rehabilitation
Washington DC Veterans Affairs Medical Center
Advisors: Drs. Trudy Mallinson, Theresa Bender Pape, and Joel Scholten

ACADEMIC APPOINTMENTS:

2023-Present **Assistant Professor**
Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy
University of Southern California

2020-2022 **Health Science Specialist**
Center for the Study of Healthcare Innovation, Implementation & Policy
VA Greater Los Angeles Healthcare System

AFFILIATION APPOINTMENTS:

2022 **Adjunct Assistant Professor**
Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy
University of Southern California

2018-2021 **Adjunct Assistant Professor**
Department of Health, Human Function, and Rehabilitation Sciences
George Washington University

II. SCHOLARLY ACTIVITIES

GRANTS AWARDED:

External Grants (Federal/Corporate Funding)

Principal Investigator/Co-Principal Investigator

CURRENT

08/2025-07/2026 **Southern California Clinical and Translational Science Institute**
National Center for Advancing Translational Science (NCATS)
Healthcare Delivery Science Seed Grant Award
Award: UL1TR001855
Role: Principal Investigator
Title: Translating Prediction Models for Post-Acute Rehabilitation
Outcomes to Clinical Practice
Funding: \$15,000

Overall Aims: The goal of the study is to develop a translation and implementation strategy for clinically useful prediction models to support stroke rehabilitation for adults admitted to inpatient rehabilitation facilities. This study will produce a prototype translation tool that will be co-designed with rehabilitation practitioners (occupational therapists, physical therapists, and speech-language pathologists), as well as the design and proposal for a feasibility and pilot study.

07/2024-06/2026

Eunice Kennedy Shriver National Institute for Child Health and Human Development (NICHD)

Clinical Research Loan Repayment Award

Award: LRP0000045971

Role: Principal Investigator

Title: Rehabilitation and Functional Recovery Studies in Health Services

Funding: \$100,000

Overall Aims: This award will substantially reduce my student loan debt. Alleviating this financial burden will allow me to focus more of my time and energy on my grantsmanship skills and research activities. My long-term career goal is to improve outcomes for adults with acquired brain injury (ABI) by developing tools to support data-driven clinical decision making for rehabilitation services.

04/2024-03/2027

**Southern California Clinical and Translational Science Institute
National Center for Advancing Translational Science (NCATS)**

Mentored Career Development in Clinical and Translational Science
(KL2)

Award: UL1TR001855

Role: Principal Investigator

Title: Designing Precision Rehabilitation for Post-acute Care (PRE-PAC)

Funding: \$75,000 + 75% FTE

Mentors: Mary C. Lawlor, ScD, OTR/L, FAOTA (primary) and Nicolas Schweighofer, PhD (co-mentor)

Overall Aims: The aims of this training award are to (1) create patient profiles of functional recovery in the domains of self-care, mobility, and cognition for adults with stroke to evaluate the association of how rehabilitation service time as distributed among occupational, physical, and speech-language therapies is associated with functional outcomes; and (2) investigate real-time processes for clinical decision-making about therapy time and activities for adults with stroke in an inpatient rehabilitation setting.

COMPLETED

04/2021-03/2022

American Occupational Therapy Foundation (AOTF)

Health Services Research Grant

Award: AOTFHSR20Cogan

Role: Principal Investigator
Title: Using EHR Data to Monitor Functional Recovery in Adults with Brain Injury during Inpatient Rehabilitation
Funding: \$92,241
Mentor: Trudy Mallinson, PhD, OTR/L, FAOTA, FACRM
Overall Aims: The goals of this pilot study were to (1) document procedures for cleaning and managing electronic health record data for research on rehabilitation services and outcomes and (2) explain the association of functional recovery with therapy time and content over an episode of inpatient rehabilitation for patients with acquired brain injury.

Project Principal Investigator

COMPLETED

06/2023-05/2025

Learning Health Systems Rehabilitation Research Network (LeaRRn) Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) and National Institute of Nursing Research (NINR)

Learning Health System Scholar Program

Award: 1P2CHD101895-01 (PI: Resnik)

Role: LHS Scholar

Title: Data visualization for adults with disorders of consciousness

Percentage of Effort: 2.5%

Funding: \$15,000

Overall Aims: As a LeaRRN LHS Scholar, Dr. Cogan is collaborating with Spaulding Rehabilitation Network to create tools to visualize assessment data from electronic health records to support clinical decision making and communication for patients enrolled in their Disorders of Consciousness program.

Co-Investigator, Collaborator, or Consultant

COMPLETED

9/2022-3/2025

US Department of Defense

Clinical Research Development Award

Award: W81XWH2210925

Role: Co-Investigator

Title: Supporting Improved Clinical Decision Making in Severe Traumatic Brain Injury Through Greater Accuracy and Precision of Neurobehavioral Common Data Elements

Percentage of Effort: 15%

Funding: \$299,639

Overall Aims: The goals of this Clinical Research Development Award are to (1) validate our preliminary psychometric findings about the alignment of the Coma Recovery Scale-Revised (CRS-R) and Aspen

criteria for disorders of consciousness on a large, secondary dataset from the Traumatic Brain Injury Model Systems database and the Federal Interagency Traumatic Brain Injury Research Informatics System database, (2) identify patient subgroups that have similar functional recovery trajectories, and (3) develop a clinical research study aimed at improving communication of assessment results in practice.

10/2021-9/2022

VA Health Services Research & Development (HSR&D)

PROVEN Hub Rapid Pilot Project

Award: SDR-20-197-8 (Co-PIs: G. Fix & J. Davila)

Role: Co-Investigator

Title: Enhancing PROVEN's Understanding of the Veteran Experience during the Cerner Transition (PROVEN VET)

Funding: \$84,000

Overall Aims: The goal of this pilot study was to identify the information needs of Veterans around a transition from one electronic health record system to another, as well as their experiences of receiving care during such a transition.
